Re: Street Tree Policy

A policy was adopted to require homeowners removing a street tree (trees located 6' to 8' from street) from their yard to replace it with a 10-12' (unless the city requires a larger tree), Florida #1 grade, Live Oak Tree.

Amended on February 20, 2024

A policy was adopted to require homeowners removing a street tree (trees located 6' to 8' from street) from their yard to replace it with a 10-12' (unless the city requires a larger tree), Florida #1 grade, Live Oak Tree.

The Board of each neighborhood may choose the type of street tree required to be installed in their neighborhood. The chosen tree must be permitted by the city and the Eagle Trace Community Association Board.
